Emerging Technology Open Working Group

September 17, 2018

1 South Van Ness, Atrium
San Francisco, CA 94102

Welcome!

Linda Gerull
Chief Information Officer, City & County of San Francisco

Open Working Group Goal

Inform recommendations as subject matter experts

Open
Working Group

City
Administrator

Today's Outcome

Review, modify, & add to possible actions

for San Francisco's emerging technology approach and policies.

How We'll Work Together

YOU
- Online surveys
- Participation: Working Group Sessions

STAFF
- In-person attendance
- Share previous Session's Outcomes
- Updates on progress to-date
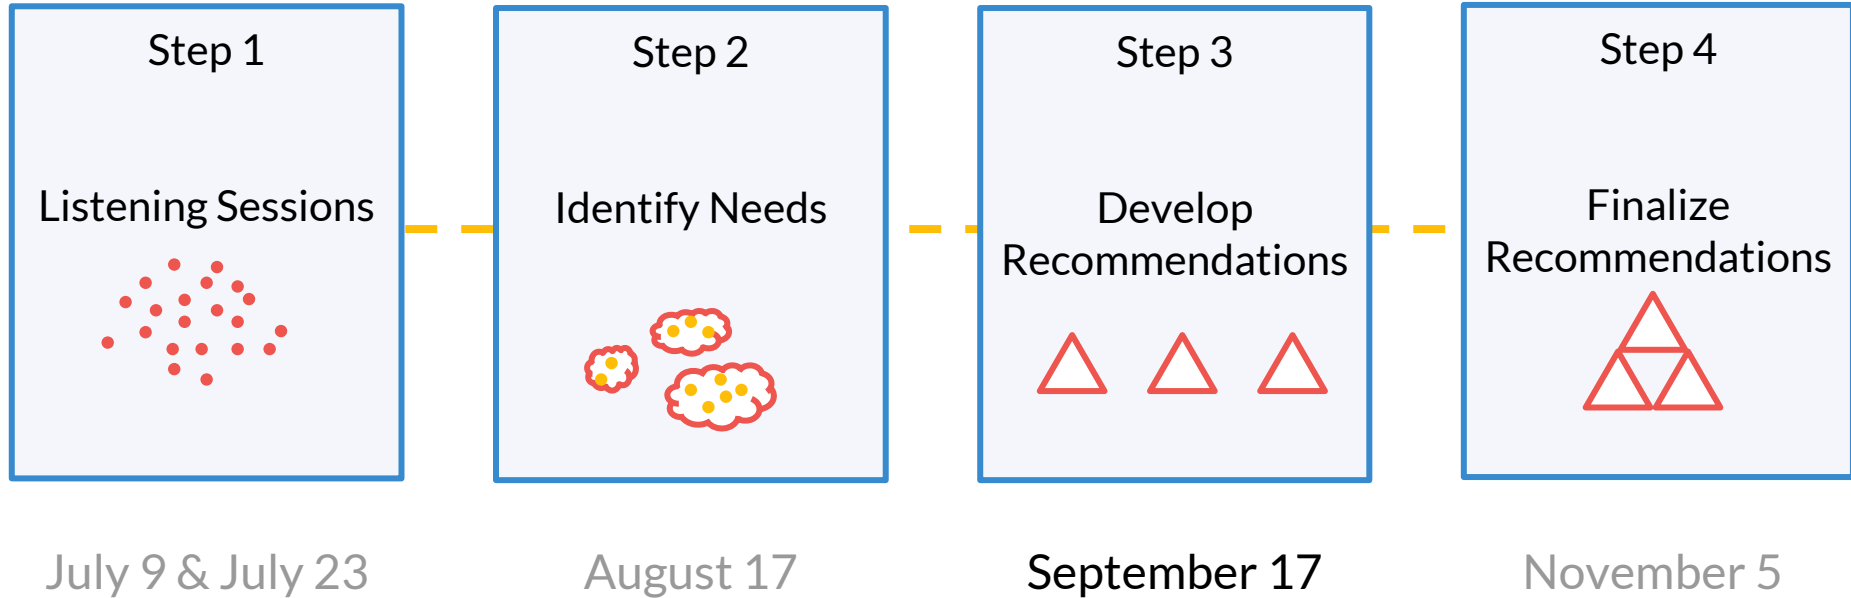

Each session builds upon the previous sessions and surveys

Guidelines

- Be respectful

- Let everyone participate

- Ideas and concepts--wordsmithing and refinement will happen later

- In small groups: consensus is great, but "I can live with it" is fine too

- Mobile phones on silent, please

Process Overview

Step 1	Step 2	Step 3	Step 4
Listening Sessions	Identify Needs	Develop Recommendations	Finalize Recommendations
July 9 & July 23	August 17	September 17	November 5

Today's Agenda

- Introductions

- Direction and Decisions To-Date

- Participant Input - Evaluate Options

- Next Steps

Introximtions

In 15 seconds or less:

- Your Name

- Organization You're Here Representing

Working Group Sessions To-Date

The Emerging Technology Open Working Group has held 2 Listening sessions, and 1 Needs Identification session in the last 2 months.

Overall, we had **299 people RSVP** from the following sectors:

- 75 Community Members
- 86 Non-Profits
- 81 Private Sector
- 57 City Staff

Staff's Work To-Date

- Synthesis of July Listening Sessions and August Needs Session

- Comparative City Research
  - Examples from **28 cities** including Boston, New York City, Portland, Singapore, Seattle, and many more!

- Interviews with **58 organizations** and counting!

- Drafted **possible actions**

Board of Supervisors Principles

Emerging Technologies should promote:

- The net common good
- The safety, needs, and convenience of humans
- The needs of the most vulnerable members of our community
- Public safety
- Pay for direct & indirect costs on public infrastructure
- Data sharing with public agencies
- Evaluation of impact on public spaces
- Labor rights
- Appropriate labeling for business information
- Protect private information of individuals
- Public-private partnerships
- Regulation that is nimble and responsive

Progress To-Date

Definition

- Emerging technologies include new technologies, applications of technology, and business models that:
    - Are in development and have only been tested at market level on a limited basis;
    - Will have a measurable impact economically, socially, or morally in the next five to ten years; and,
    - Do not fit within existing regulatory categories or schemes within San Francisco.

Working Vision

- San Francisco embraces technology to enhance quality of life and our public spaces.

Focus Areas

1. **Community Engagement & City Priorities**
2. **Collaboration & Partnerships**
3. **Agile Permitting & Accountability**
4. **Equitable Benefits**
5. **Accessibility & Safety**
6. **Data Sharing, Security, & Privacy**
7. **Forecasting**

Participant Input Session

1 hour +/-
